Audio streams require Windows Media installations.

About Digirad

Digirad Corporation develops, manufactures and markets solid-state, digital gamma cameras to hospitals, imaging centers and physician offices. Digirad offers a comprehensive line of solid-state nuclear gamma cameras that produce high-quality images for use in the detection of many medical conditions, including cardiovascular disease. Digirad's cameras are unique as their lightweight and compact design allows them to fit easily into small office spaces. Digirad's wholly owned subsidiary, Digirad Imaging Solutions, offers a comprehensive, mobile imaging leasing and services program for physicians who wish to perform in-office nuclear cardiology procedures but do not have the patient volume, capital or resources to justify purchasing a gamma camera. For more information, please visit www.digirad.com. Digirad® and Digirad Imaging Solutions® are registered trademarks of Digirad Corporation.
